

***Pedicure Service Procedure for AGED FEET\****  
**(Classic Technique)**

<b>No</b>	<b>Name of the cosmetic</b>	<b>Volume, ml</b>	<b>Exposure/ treatment time, min</b>	<b>Application</b>	<b>Effect</b>
1	SANITAR Protecting Lotion	2 ml	-	Apply the SANITAR Protecting Lotion to the feet. In case of contact with mucous membranes, rinse with plenty of water.	Antiseptic treatment for the client prior to the pedicure service.
2	Moisturizing Carbamide Keratolytic Agent	3 ml	3-5	Apply the Moisturizing Carbamide Keratolytic Agent to the soles of feet. Do not rinse off.	Safely softens coarse skin for easy removal.
3	Softening Spa Gel	0.3 ml	10-15	Add a few drops to the foot spa bath. Soak the feet for 10-15 mins. Pat the feet dry.	Maceration.
4	Moisturizing Carbamide Keratolytic Agent***	3 ml	3-5	Apply the Moisturizing Carbamide Keratolytic Agent to the soles of feet once more. Do not rinse off.	Safely softens coarse skin for easy removal.
5	EXPRESS Callus Eliminator	2 ml	2-5	Apply the EXPRESS Callus Eliminator locally on calluses with a cotton pad.	Safely softens coarse skin for easy removal.
6	EXPRESS Neutralizer	2 ml	-	Apply the EXPRESS Neutralizer locally on the calluses treated with the EXPRESS Callus Eliminator. Pat dry with a towel. File off the softened calluses.	Restores the skin's pH balance; helps remove dry skin.

7	Therapy Gel Scrub for Foot Care	2.5 ml	5-20 Treatment time includes active exfoliation and gel absorption.	Apply the Therapy Gel Scrub for Foot Care to the treated surface and massage it to exfoliate the skin. After the gel is absorbed, brush off the scrub particles.	Polishes, massages and starts skin regeneration processes.
8	Regenerating Gel for Foot Care	2 ml	1-3	Apply the Regenerating Gel for Foot Care to clean feet and massage until fully absorbed.	Moisturizes and regenerates the skin of the feet.
9	<p>Homecare:</p> <ul style="list-style-type: none"> <li>- Apply the Regenerating Gel for Foot Care or the Regenerating Serum for Foot Care once daily;</li> <li>- Apply the Regenerating Bio-Wax as needed to prevent skin dryness.</li> </ul> <p>* - aged/very dry feet may have insufficient moisture in the skin; therefore, additional moisturizing is required.</p> <p>*** - if necessary, the problem areas of the skin can be additionally treated with a <b>Carbamide Keratolytic Agent</b> before applying the <b>EXPRESS Callus Eliminator</b>, to enhance the loosening of coarse skin.</p> <p><i>The product quantities were approximately calculated for one manicure/pedicure service. The calculation was based on the price set by the technician. * The calculation used the quantity indicated in brackets.</i></p>
