

## *Pedicure Service Procedure for FUNGAL NAILS*

<b>№</b>	<b>Name of the cosmetic</b>	<b>Volume, ml</b>	<b>Exposure/ treatment time, min</b>	<b>Application</b>	<b>Effect</b>
1	Liquid Gloves Protecting Gel	2 ml	-	Apply the Liquid Gloves Protecting Gel to clean hands and massage until fully absorbed.	Antiseptic treatment for the technician prior to the pedicure service.
2	SANITAR Protecting Lotion	2 ml	-	Apply the SANITAR Protecting Lotion to the feet and the tools.	Antiseptic treatment for the client prior to the pedicure service.
3	Prophylactic Carbamide Keratolytic Agent	3 ml	1-20	Apply the Prophylactic Carbamide Keratolytic Agent (pH = 7) to the soles of feet. Work on the softened skin with a milling cutter.	Safely softens coarse skin for easy removal; prevents fungal nail infections.
4	Cuticle Remover	0.8 ml	1-5	Apply the Cuticle Remover (pH = 7) to the toenail cuticle. Remove the softened cuticle with a milling cutter.	Safely softens toenail cuticle for easy removal; retains cuticle elasticity and prevents hangnails.
5	Regenerating Nail Therapy Gel	0.4 ml	-	Gently massage the Regenerating Nail Therapy Gel into the nail plate and the cuticle.	Moisturizes and regenerates the skin around nail plates.
6	Antiviral and Antifungal Preventive Lotion	0.5 ml	-	Apply 2-3 drops of the Antiviral and Antifungal Preventive Lotion to the prepared toenails (broken, fungus-infected parts of toenails removed as much as possible) and leave until dry.	Actively treats fungal lesions.

7	Preventive Bio-Wax with Micronized Sulphur	0.5 ml	5-20 Treatment time includes active exfoliation and gel absorption.	Apply the gel scrub to the treated surface and massage it to exfoliate the skin. After the gel is absorbed, brush off the scrub particles.	Reduces inflammatory processes; softens nail plates, improves their elasticity and facilitates nail growth; prevents fungal nail infections.
8	<p>Homecare:</p> <p>First month:</p> <ul style="list-style-type: none"> <li>- Apply 2-3 drops of the Antiviral and Antifungal Preventive Lotion to fungal lesions twice a week;</li> <li>- Gently massage the Regenerating Nail Therapy Gel into the nail plate and the cuticle twice daily;</li> </ul> <p>Second month:</p> <p>Alternate your remedy to the Antiviral and Antifungal Preventive Lotion or the Preventive Bio-Wax with Micronized Sulphur and apply 2-3 drops to fungal lesions twice a week until cured.</p> <p><i>The product quantities were approximately calculated for one manicure/pedicure service. The calculation was based on the price set by the technician. * The calculation used the quantity indicated in brackets.</i></p>
